

1. Status holders

Unaccompanied Minor Foreign Nationals (UMFN) for status holders.

Have you just arrived in the Netherlands? Are you from a country outside the European Union? For example Eritrea or Syria? If this is the case, you identify as a Alleenstaande Minderjarige Vreemdeling (AMV). This means that you are an Unaccompanied Minor Foreign National (UMFN).

Beginning 2016 Rubicon started providing shelter for UMFN. These are children who, just like you, are between the ages of 0 and 18 years old, and were born outside the European Union.

Safety

Rubicon provides children and adolescents like you with a safe place you can call your home for the upcoming years. We try our very best to help you adapt to a life in the Netherlands. We help you become an independent individual. Because after your 18th birthday, you can lead a more independent life. In the Netherlands.

The European Court for the Rights of Children has provided regulations for young people like you. You have arrived in the Netherlands without family that are majors (family older than 18 years old) or anyone else who can legally represent you. You might apply for asylum. When you arrived in the Netherlands, you were a minor. Because of this, up until your 18th birthday, you are entitled to shelter and support. Rubicon is one of many institutions that shelters young people like you.

KWG, KWE and KWE+

Rubicon shelters you and other young people like you in a KGW (kinderwoongroep, a living unit for young people), a KWE (kleine wooneenheid, a small living unit), or a KWE+.

A KWG is inhabited by 12 young people. This unit is supervised by a social worker from Rubicon during every hour of every day.

A KWE is inhabited by a maximum of 4 young people. Rubicon supervises these young people for a limited number of hours every week. This results in a way of life that is quite independent.

A KWE+ is inhabited by a maximum of 8 young people. Rubicon supervises these young people for a limited number of hours every week as well.

The supervision that is provided in a KWG and in a KWE helps you create and maintain your own living environment and teaches you how to take care of your own health and personal development. You will go to school, you will learn the Dutch language and culture and you will keep growing and learning, so you will be ready for an independent future in the Netherlands or another country.

How to proceed?

The future of the role Rubicon is allowed to play in your life is dependent on the political situation in the country you came from, as well as the political situation in the Netherlands itself. A lot is uncertain, for you as well as for the social workers at Rubicon who support you. These social workers are well prepared for their job. They are flexible and will do their very best to support you, even if your future is yet unclear.
